

Dear Island Coast Dentistry patients,

We have been closely monitoring the spread of the coronavirus through the CDC and the FDA. As a Dentist, Hygienists & staff we are a part of the healthcare community and have a responsibility in the prevention and mitigation efforts during this outbreak. As a part of the healthcare community and the community at large, we have to protect the safety of our patients and staff. This is a very difficult decision, but it comes at a critical time and we must reduce the spread and impact of Coronavirus amongst the community. The health of our patients, their families, and friends is our top priority. Therefore going forward starting March 17th, we will only be seeing patients for emergency care until March 30th unless mandated otherwise. All hygiene as well as other non emergency dental procedures during this time will be postponed and rescheduled. If you have an appointment during this time, one of our team members will be reaching out to you.

If you need emergency treatment, we will be screening for the following,

Fever

Cough

Shortness of Breath

Chills

Exposure to the flu, cold or COVID-19

Travel to China, South Korea, or Europe within the last month.

If you have any of these symptoms, please contact your medical doctor.

Thank you for your patience during these turbulent times. We are blessed that you choose us to be your oral health care provider.

Sincerely,

Jeffrey Skupny, DMD and team
